Maths

- Imagine you are having a birthday party for 10 people. You have £100 to spend on anything you need. How would you spend it?
- If you have learned how to, make a scale drawing of your bedroom.

Outdoor Learning

- Build a snowman or snow/woodland structure. Measure the circumference and the height. How much snow or different materials did you use? How do you know?
- Animals tunnel through the snow and sometimes you can find these tunnels. Try tunnelling through the snow yourself! You can make a tunnel to fit you or maybe imagine you are a small creature and make a tiny tunnel. Where will it go? Why does it go there? What type of hazards will you meet? How will you stay safe?
- Develop a story using the tunnelling, as your starting point. Remember to write in sentences and include capital letters, full stops and adjectives.
